## **Do contact tracers work from home?**

This depends on the needs of the community that requests your help. Contact tracer assignments vary from working on-site to working from home (if you meet the IT requirements).

If you do work on-site appropriate PPE will be provided.

## **How many hours would I work a day?**

Workdays and hours will be determined by the requesting agency once selected.

## **How many days would I work for?**

Deployment lengths can last from a few days to several months, with an average of 14 days

## **How much are contact tracers paid? What costs am I reimbursed for?**

Pay for contact tracers currently ranges from \$19 - \$24/hour

If you have to travel to the site, generally, lodging, mileage, and per diem are included.
